“The **GUNK®** and **Liquid Wrench®** teams are excited to wrap up the nationwide tour at the 2011 SEMA Show,” said Aaron Martin, director of marketing for RSC Chemical Solutions. “We chose a ’68 Chevelle SS for the Tour because, like the **Liquid Wrench®** and **GUNK®** brands, it’s a long-standing American icon. This will be a great opportunity for automotive enthusiasts to get a look at the restored Chevelle and enter to win it.”
